

SEA 60

NEW WET & DRY BATTERY-POWERED VACUUM CLEANER FROM STIHL

The new SEA 60 battery-powered wet & dry vacuum cleaner from STIHL not only impresses with its high suction power, but also with the extensive range of accessories included as standard with the tool. Ranging from crevice and universal nozzles, suction pipes and a power tool adapter, all accessories can be stowed neatly on the vacuum for greater convenience.

Whether vacuuming in the garage, workshop, car or around the home, the SEA 60 is powerful enough to reliably deal with stubborn dirt and dust, without the hassle of a power cable.

For optimum energy efficiency, the STIHL SEA 60 has two power levels. Level 1 is ideal for hard floors and light dirt, while level 2 offers maximum suction power for carpets and wet surfaces.

Like all STIHL battery-powered machines, the SEA 60 features a highly efficient brushless motor, developed with low wear and durability in mind. The SEA 60 meets dust class L, making it suitable for cleaning normal house dust, as well as other substances such as sand, plaster and chalk.

Part of the STIHL AK System of battery-powered tools, the SEA 60 is recommended with the AK 20 battery and has a working time of between 16 and 26 minutes, depending on the selected power level. Over 20 other tools feature in the AK System, ranging from lawnmowers and grass trimmers to power washers and chainsaws.

To find out more about the SEA 60 battery-powered vacuum, visit www.stihl.co.uk or call in at your nearest STIHL Approved Dealer.

About STIHL

It all started with a chainsaw, and to this day, it's still the product for which the STIHL brand is best known worldwide.

Ever since Andreas Stihl invented the first portable chainsaw, the STIHL name has stood for revolutionary technology, driven by significant investments in research and development and a single-minded passion for making people's lives easier when working in nature. It's because of this that STIHL has been the world's best-selling petrol chainsaw brand since 1971.

But the STIHL name is now synonymous with many other industries too, as well as with home gardeners looking for premium quality tools. The extensive STIHL range includes hedge and grass trimmers, multi-tools, pressure washers, construction tools, lawn mowers, lawn tractors, robotic mowers and of course, chainsaws.

A family-owned business based in Germany, STIHL employs over 19,000 people worldwide and sells products in more than 160 countries globally.

STIHL GB is a wholly-owned subsidiary of the global STIHL Group. In Great Britain, STIHL is available from a network of 750 STIHL Approved Dealers across Great Britain. A range of battery and electric products and accessories are also available from independent garden centres, Screwfix and www.shop.stihl.co.uk.
